

# Scope 3 – Vendor Resources

It's important to select resources and methodologies that align with your specific industry, business size, and reporting requirements. It may be beneficial to consult multiple resources and seek professional advice to ensure accurate and comprehensive carbon emissions accounting.

## Getting Started with Measuring Your Company's GHG Emissions:

### [Greenhouse Gas Protocol \(GHGP\):](#)

Comprehensive guidance on measuring and reporting GHG emissions, offering standards and tools for both corporate and product-level accounting.

- [GHG Protocol: Scope 2 Guidance](#)
- [GHG Protocol: Scope 3 Guidance](#)
- [GHG Protocol: Product Standard](#)
- [GHG Protocol: Online Training](#)

## Reporting Your Company's GHG Emissions:

### [Carbon Disclosure Project \(CDP\):](#)

A platform for disclosing exclusively environmental data, including carbon emissions, water, and forests. CDP also provides guidance and resources for measurement, management, and reporting.

- [CDP: How to disclose as a company](#)

### [Sustainability Accounting Standards Board \(SASB\):](#)

Connects businesses and investors on the financial impacts of sustainability. SASB Standards enable businesses to identify, manage, and communicate financially material sustainability information to investors.

- [SASB FAQ](#)

### [ISO 14064:](#)

Guidelines for quantification and reporting of GHG emissions and removals, offering a framework for developing and implementing a carbon accounting system.

## Reducing Your Company's GHG Emissions – Getting Started with a Science Based Target:

### [Science Based Target initiative \(SBTi\):](#)

Provides a clearly-defined path for companies to reduce emissions in line with the goals of the Paris Agreement.

- [SBTi: What are Scope 1, 2, and 3 emissions?](#)
- [SBTi: How it works](#)
- [SBTi: Resources](#)

## Sector-specific Guidance for Food & Agriculture Companies:

### [SBTi Forest, Land and Agriculture \(FLAG\) Guidance:](#)

Offers a common, robust, science-based understanding on how much and how quickly a company needs to cut its land-related emissions in line with the Paris Agreement.

### [Greenhouse Gas Protocol \(GHGP\):](#)

Develops guidance to provide clarity on how specific sectors can apply GHG Protocol standards.

- [Agricultural Guidance](#)
- [Land Sector and Removals Guidance](#)
