

Information required to provide a quote:

1. Number of locations
2. Address of each location
3. Number of employees at each location (Please note there is a minimum clinic charge)
4. Estimation of participation (typically 25% - 50% of workforce)
5. Type of Vaccine?
- Publicly subsidized vaccines are widely available in Ontario, Nova Scotia, and Alberta only and expected to be available early November - Private vaccine is available in all provinces and expected to be available mid-October

Having all of this information will allow us to provide you with an accurate quote. We are happy to quote both private and public if both are available in your province.

Steps to booking a clinic:

1. Once you have decided on the number of clinics and participation, we will send you a Service Agreement for you to review and sign.
2. There is a >15 business day term prior to your clinics when you can cancel or modify how many people you are expecting to attend, without financial penalty. At 15 days or less, cancellation fees apply.
3. You will be provided the option of a manual registration, or using Lifemark's online registration system. Employees will sign up for an assigned 4 minute time slot.
4. Employees receive their Flu Immunization Program Consent Form ahead of time to complete and bring with them to their appointment.
5. A Service Coordinator will work with you to ensure all logistics and planning are in place for a successful clinic, including sending you all links, posters, timelines and documents needed.

COVID-19 Protocol

We adhere to all current provincial COVID-19 safety procedures and guidelines.

Now more than ever, flu is just not worth the risk

Flu is a potentially serious respiratory illness. It is estimated that each year in Canada, influenza causes:

7.5 million
lost workdays¹

~12,200
hospitalizations²

3,500
deaths²

The flu shot is the **most effective way** to prevent spread of the flu in workplaces, decrease the risk of serious complications, and reduce the impact of the flu. And that's especially important this year.

Take action to help keep workplaces healthy this flu season.
