

fondation pour  
les enfants<sup>MC</sup>

nourrir leur soif d'apprendre

# Rapport annuel 2021

# **Les enfants devraient aller loin. Pas souffrir de la faim.**

Depuis 1989, la Fondation pour les enfants le Choix du Président a nourri le bien-être de plus de six millions d'enfants canadiens.

Aujourd'hui, nous avons pour mission de nourrir un million d'enfants chaque année en proposant des programmes Enfants FORTSmidables à l'école et tout l'été. Enfants FORTSmidables met à profit nos programmes alimentaires quotidiens existants et les rehausse avec de nouvelles activités et ressources, parce que chaque jeune a droit à la confiance que procure le fait de savoir comment cultiver et cuisiner ses propres aliments.

# Message de notre président

Après l'incertitude de la première année de la pandémie, comme de nombreuses organisations, l'équipe s'est attachée en 2021 à faire mieux. Dans le cadre de nos activités caritatives, cela signifiait lancer notre nouveau programme, Enfants FORTSmidables, et avoir une influence constante sur tous les enfants que nous servons. Il s'agit non seulement de s'assurer qu'ils sont bien nourris et prêts à apprendre aujourd'hui, mais aussi qu'ils ont les compétences nécessaires pour grandir et cuisiner pour eux-mêmes et leurs proches demain.

Mieux, c'est aussi se fixer un nouvel objectif ambitieux : nourrir un million d'enfants par année. Atteindre cet objectif nécessitera nos efforts collectifs. Plus particulièrement, les collègues de Loblaw qui organisent des collectes de fonds et font des dons avec tant d'enthousiasme pour soutenir nos enfants. Ces efforts seront également soutenus par la volonté de l'entreprise d'aider les Canadiens à bien vivre et par le fait d'être la pierre angulaire de son engagement à promouvoir l'équité sociale.

La Fondation pour les enfants le Choix du Président a la chance de bénéficier de la contribution des clients, des collègues et des fournisseurs de Loblaw, qui ont à cœur de faire ce qu'il faut pour nos enfants et leur avenir.

Fondation pour les enfants le Choix du Président

# Le message de notre directrice générale

Au cœur de la lutte d'un enfant contre la faim se trouvent la solitude, l'anxiété et le stress causés par la volonté de gérer plus que ce que l'on peut gérer, ou le désespoir de ne plus avoir le contrôle. Les enfants qui souffrent de la faim manquent plus de jours d'école et perturbent leur classe plus souvent. Les amis voient leur lutte et se battent pour aider. C'est plus que ce que nos enfants devraient avoir à supporter.

Nourrir un million d'enfants chaque année contribuera à alléger un peu ce fardeau. Nos nouveaux programmes Enfants FORTSmidables proposent une alimentation fiable et quotidienne, là où les enfants apprennent, ce qui permet aux participants de se concentrer sur leur travail scolaire, leurs amis et leurs espoirs, plutôt que sur leur faim. Le développement de nouvelles activités et ressources qui apprennent aux enfants à cultiver et à cuisiner leur inspirera un amour de la nourriture pour la vie, et les sensibilisera à la provenance de la nourriture et à son influence sur nos vies.

Grâce aux programmes Enfants FORTSmidables, nous voulons faire de la nourriture le lien entre notre passé et notre avenir, et entre nous et les personnes que nous aimons.

Lisa Battistelli  
Directrice générale,  
Fondation pour les enfants PC

# Notre plan pour nourrir un million d'enfants.

La Fondation pour les enfants le Choix du Président vise à bien nourrir un million d'enfants par année à l'école et tout l'été, d'ici 2025.

La réussite scolaire peut influencer les perspectives d'un jeune, mais les leçons ne sont pas toujours académiques. Pendant la période où nous sommes à l'école, nous apprenons à établir des relations, à avoir confiance en nous et à faire preuve de résilience. Les enfants qui participent à la campagne Enfants FORTSmidables | Bien manger, notre programme scolaire, reçoivent des repas et des collations quatre jours par semaine de septembre à juin.

Nous nous souvenons tous des jours d'insouciance passés en été avec nos amis, mais savez-vous que les enfants souffrant d'insécurité alimentaire subissent une plus grande perte d'apprentissage pendant les vacances scolaires que leurs camarades? Enfants FORTSmidables | Découvrir les bons aliments, notre programme estival, est conçu pour répondre aux besoins nutritionnels des enfants et des jeunes dans des camps d'été de huit semaines et contribuer à égaliser les chances.

Tous les programmes Enfants FORTSmidables comprennent des ressources et du matériel qui permettent aux enfants et aux jeunes d'acquérir les compétences nécessaires pour se développer et cuisiner.

« J'aime bien le programme culinaire, parce que je m'amuse avec mes amis et que nous mangeons tous ensemble lorsque nous avons terminé. »

Christian,  
Enfant FORTSmidable

# KLO nourrit le corps et l'esprit des élèves

Cela fait plus d'un an que l'École KLO Middle School a reçu sa ferme en conteneur Enfants FORTSmiddables | Futurs cultivateurs, un système de culture futuriste qui permet aux élèves de produire des légumes frais et des fines herbes, et de les cultiver eux-mêmes. La ferme est devenue un outil d'enseignement unique, tout en créant un programme de repas durable pour les élèves.

Lors d'un récent voyage à l'école, Lisa Battistelli, et Andrea Elliott de la Fondation pour les enfants le Choix du Président ont pu visiter l'école et découvrir comment la ferme a touché les élèves, le personnel et la communauté, offrant ainsi une occasion d'apprentissage unique qui a le potentiel d'avoir un impact durable.

Karla Lockwood, enseignante en études environnementales à KLO, qui travaille également avec ses élèves dans le cadre du programme Futurs cultivateurs, dit que l'objectif de la ferme a dépassé les attentes initiales.

« Nous enseignons aux élèves la sécurité alimentaire et le besoin d'accéder à des aliments frais », dit Karla. « Nous pouvons prendre les fruits et les légumes de la ferme et nourrir nos élèves en nous assurant qu'ils

ont des légumes verts à feuilles sains, et que les revenus générés par la ferme peuvent retourner directement dans le programme de repas afin qu'il y ait des repas et des collations sains pour tous ceux qui en ont besoin. »

Certains élèves de 9<sup>e</sup> année de la classe des études environnementales de Karla ont reconnu l'impact du programme au sein de la ferme et à l'extérieur. « J'ai appris beaucoup sur l'insécurité alimentaire, comment de nombreux élèves vont à l'école le ventre vide et ne disent rien, et ça me fait du bien de partager les fruits et légumes que j'ai cultivés avec ma communauté scolaire », dit Tarren, élève de 9<sup>e</sup> année. « Avant ce programme, je n'aimais pas me salir les mains en travaillant avec des plantes. Mais cela m'a ouvert les yeux sur le fait que j'aime travailler avec les plantes et cela m'a donné envie de me lancer dans une carrière dans l'étude des plantes. »

« J'ai appris beaucoup sur l'insécurité alimentaire, comment de nombreux élèves vont à l'école le ventre vide et ne disent rien, et ça me fait du bien de partager les fruits et légumes que j'ai cultivés avec ma communauté scolaire. »

Un autre élève, Jabari, a constaté sa propre croissance personnelle depuis qu'il travaille à

la ferme et il a appris beaucoup de choses sur la sécurité alimentaire. « Grâce à ce programme, je gaspille moins de nourriture, car je sais que tout le monde n'a pas quelque chose à manger tous les jours. J'aime davantage cuisiner depuis que j'ai commencé ce programme. Ce que je préfère, c'est utiliser des herbes, comme le thym. »

La ferme Futurs cultivateurs touche tous les aspects de l'école et peut s'intégrer à tous les programmes, des cours de mathématiques aux cours de commerce, où les élèves créent un modèle d'affaires pour vendre des fruits et légumes afin de ramener les revenus à l'école pour compléter notre programme de repas. KLO s'est également associée à une ferme locale qui fait de l'élevage d'insectes destiné à la consommation humaine. Ils utilisent les déchets organiques de la ferme pour nourrir les insectes. Ce partenariat a également inspiré un programme de compostage dans l'école.

« L'objectif de la ferme est de nourrir le corps et l'esprit de nos élèves. », dit Karla. « Aucun élève ne devrait avoir le ventre vide. Notre objectif est de pouvoir nourrir les enfants et de bâtir une communauté, en commençant à l'école et en développant le concept à l'extérieur. »

« Les enfants sont aux premières loges pour voir les résultats de leur apprentissage. C'est un outil formidable pour enseigner aux élèves ce que sont la sécurité alimentaire et la durabilité; les occasions d'apprentissage sont très nombreuses. »

Karla Locke,  
Enfants FORTSmidables | Futurs cultivateurs à l'école KLO Middle School.

# Enfants FORTSmidables<sup>MC</sup>

Les programmes Enfants FORTSmidables combinent des repas et des collations sur une base régulière à de l'éducation et des activités pour aider les enfants à redécouvrir la nourriture.

## À l'école

### **Enfants FORTSmidables | Bien manger**

le plus grand programme de bienfaisance offrant des repas dans les écoles, combine des repas quotidiens avec des activités amusantes pour que les enfants puissent établir des liens entre eux et avec leur nourriture.

### **Enfants FORTSmidables | Cultiver et cuisiner**

offre aux enseignants de l'équipement et des ressources pour aider leurs élèves à développer les compétences nécessaires pour cultiver et cuisiner facilement.

### **Enfants FORTSmidables | Futurs cultivateurs**

marie une ferme en conteneurs haute technologie installée sur la propriété de l'école avec des systèmes alimentaires autochtones traditionnels pour améliorer l'accès aux produits frais et offrir un environnement d'apprentissage alternatif.

## Tout l'été

### **Enfants FORTSmidables | Découvrir les bons aliments**

encourage les campeurs à découvrir les aliments locaux qui s'épanouissent dans les conditions que seul l'été peut offrir, et veille à ce qu'ils soient bien nourris et prêts à apprendre.

# Repas et collations

Tous les jours, partout où les enfants apprennent.

# La Fondation pour les enfants le Choix du Président et l'Université de Toronto veulent découvrir les effets de la nutrition à l'école

Le Canada est la seule nation du G7 sans programme national de repas scolaires. Au Japon, les repas scolaires sont offerts à tous les élèves à des prix fortement subventionnés. En France, des repas à plusieurs services sont offerts à chacun des six millions d'élèves du pays. Et aux États-Unis, l'USDA soutient un programme national qui offre des repas gratuits ou à prix réduit. Avec la participation des gouvernements provinciaux, municipaux et potentiellement du gouvernement fédéral, ainsi que de centaines d'organismes de bienfaisance, proposant tous divers modèles, comment choisir le bon programme alimentaire pour les étudiants canadiens?

Nous croyons que la première étape consiste à comprendre comment faire en sorte que la faim ne soit plus un obstacle à l'apprentissage de plus d'un million d'enfants qui vont à l'école le ventre vide. Les enfants affamés ressentent un niveau d'anxiété 27 % plus élevé, ils manquent plus d'école et ils perturbent leur classe plus souvent. Les effets de la faim sont donc étendus aux autres élèves. Nos enfants ont-ils besoin d'un repas chaud pour faciliter leur apprentissage ou de trouver un panier de collations facilement accessible en classe?

Pour mieux comprendre le problème, les modèles actuels et la façon d'avoir le plus de répercussions pour nos enfants, la Fondation pour les enfants le Choix du Président a demandé à l'équipe du Centre Joannah et Brian Lawson pour la nutrition infantile, qui fait partie de la Faculté de médecine Temerty de l'Université de Toronto, de mener une étude complète sur la façon dont les programmes de repas scolaires sont soutenus, offerts et mis en œuvre partout au Canada.

Entièrement financée par une subvention de 2 millions de dollars de la Fondation, l'étude, intitulée Feeding Kids, Nourishing Minds comprend des chercheurs issus de divers domaines : médecine, santé publique, travail social, ingénierie, sciences humaines et développement des jeunes enfants. Ce sera la première étude qui profitera à tous les organismes axés sur la nutrition scolaire, afin que les enfants qui mangent bien puissent continuer à progresser.

« De nombreuses personnes et organisations déploient des efforts considérables pour nourrir chaque jour les enfants dans les écoles des quatre coins du Canada », déclare

Daniel Sellen, directeur de l'étude et directeur du Lawson Centre. « Nous avons besoin d'une meilleure vue d'ensemble de ce travail pour guider le développement des politiques et des programmes, et pour améliorer l'offre de repas au niveau communautaire. »

« Ces données sont la pièce manquante des discussions sur le programme national de repas scolaires. Notre priorité est donc que les résultats soient accessibles au public et de suivre les normes académiques des chercheurs indépendants », dit Lisa Battistelli, directrice générale de la Fondation pour les enfants le Choix du Président. « Elles permettront de mettre au point des programmes financièrement responsables qui ont un impact mesurable pour les enfants, non seulement pour nous, mais aussi pour ceux qui en ont besoin, y compris pour les décideurs politiques. »

Les chercheurs commenceront à publier les résultats cette année, et la Fondation pour les enfants le Choix du Président les partagera avec son réseau à mesure qu'ils seront disponibles.

« C'était vraiment  
agréable  
d'apprendre à  
cuisiner mon  
déjeuner préféré. »

# Aider les Canadiens à « Vivre bien, vivre pleinement »

**Merci Les Compagnies Loblaw Limitée (Loblaw),  
ainsi que ses clients, collègues et fournisseurs.  
Loblaw a la responsabilité d'avoir une influence  
positive sur les communautés qu'elle sert.  
Cette vision est au cœur de l'objectif de la  
société : aider les Canadiens à Vivre bien, vivre  
pleinement.**

La Fondation pour les enfants le Choix du Président est fière d'être la pierre angulaire des efforts déployés par Loblaw pour promouvoir l'équité sociale. La société s'est engagée à recueillir et à donner 150 millions de dollars d'ici 2027 pour aider la Fondation à nourrir un million d'enfants par année. Pendant les quatre années qui ont suivi cet engagement, la société a mis à profit son réseau de magasins, ses clients, ses fournisseurs et ses collègues, récoltant plus de 66 millions de dollars. De plus, le coût de l'administration et des activités de la Fondation est financé directement par Loblaw. Ainsi, chaque don personnel est intégralement affecté à l'aide aux enfants.

# Sheila organise l'entraide communautaire pour ses enfants

La faim à Sudbury, en Ontario, comme dans plusieurs de nos communautés, touche souvent des personnes qui ne vivent pas si loin de chez nous. Mais ça, la plupart des gens ne le réalisent pas.

« Je ne pense pas que les gens puissent vraiment le comprendre sans l'avoir vu d'eux mêmes » explique Sheila Nosich, adjointe administrative à l'école primaire catholique Holy Cross. « Parfois, on prend pour acquis que tout le monde mange trois repas par jour ou dort dans un lit chaud, mais ce n'est pas la réalité pour certains. »

« Ce programme nous permet d'établir des relations. Les enfants savent qu'ils peuvent compter sur nous. Ils se sentent à l'aise de nous dire qu'ils ont faim, et c'est bien. Cela représente beaucoup pour moi. »

Sheila décrit sa communauté comme étant « une petite communauté très unie, où l'on s'entraide. » Ainsi, lorsque de nouveaux Canadiens sont arrivés dans la région, la communauté de l'école Holy Cross a rapidement déterminé qu'il fallait un

programme de repas scolaires universel. C'est là que la Fondation pour les enfants le Choix du Président est intervenue.

Enfants FORTSmidables, le nouveau programme phare de l'organisme de bienfaisance, aide les enfants des communautés partout au Canada, en leur fournissant des repas et des collations sur une base régulière et en leur apprenant à cultiver et à cuisiner. En participant au programme, Holy Cross peut offrir des repas plus équilibrés à plus d'enfants. Pour Sheila, l'avantage est évident : « Cela change totalement leur comportement et améliore leur concentration. » Sheila explique « Dans le passé, j'ai eu des élèves qui avaient parfois un comportement perturbateur en classe. Je me suis rendue compte qu'ils n'avaient pas assez à manger à la maison pour avoir un bon petit déjeuner. Après leur avoir offert une collation qu'ils ont engloutie, j'ai immédiatement constaté un changement positif, car ils étaient prêts à attaquer la journée. »

Sheila contribue au programme, mais elle reconnaît les efforts de tous les bénévoles dévoués qui font tout le travail difficile.

Chaque semaine, cinq parents et grands-parents faisant ou ayant fait partie de la communauté scolaire travaillent dur pour s'assurer que les 415 élèves reçoivent les repas et les collations dont ils ont besoin.

« C'est vraiment un effort d'équipe : ils planifient les repas, font les achats à l'épicerie et préparent les repas chaque semaine. Certains parents volontaires n'ont plus d'enfants à l'école, mais ils choisissent de rester pour aider. »

Mais pour Sheila, c'est plus qu'un repas. Elle veut aussi s'assurer que chaque élève se sent important et aimé. Pour elle, c'est ce qui compte le plus.

« Ce programme nous permet d'établir des relations. Les enfants savent qu'ils peuvent compter sur nous. Ils se sentent à l'aise de nous dire qu'ils ont faim, et c'est bien. Cela représente beaucoup pour moi. »
