What are the Fondation Pharmaprix pour la santé des femmes^{MC} funding priorities?

The Fondation Pharmaprix pour la santé des femmes^{MC} Community Grants program funds local charitable programs, dedicated to fostering health equity by increasing access to care and support, raising awareness for women's unique health needs, and providing support for critical women's health research. We're proud to support a network of community organizations who are leading the way to ensure equitable and accessible care so that all women in Canada can lead healthier lives.

- Grants are available for new and existing initiatives that will help to create positive health outcomes for women, and that:
- Increase women's access to care and support that promotes health and well-being
- Support the development of research that focuses on women's health issues and solutions.
- Drive awareness and understanding of issues that impact women's health equity.

**Please note, priority will be given to funding opportunities that serve vulnerable women*

When will I hear if my request has been approved?

Applicants will be notified no later than July 31, 2024. Please note that due to the large volume of requests we receive, we are unable to respond to telephone or e-mail inquiries regarding the status of requests.
